PLEASANT VALLEY, BUCKS CO., PA.

Greetings Iris Friends!

To our many customers this greatly curtailed catalog without color plates and pictures may come as a surprise. But since we have reached the decision to retire after this season, we want to give our customers the opportunity to buy choice new and popular varieties of iris at as great a savings as possible. To do this we will cut down on unnecessary expenses but not on the quality of our plants.

The prices which we have shown are all the established prices set by the originators or introducers for 1960—we are offering them at exactly one half the regular prices shown in our catalog.

Fifteen years of growing iris commercially has truly made iris a part of our lives. It could not be otherwise, as there is hardly a month in the year that a commercial grower has not duties to perform, problems to meet and plans to make. We have seen the business grow larger every year—thanks to the fine support received from the growing list of iris customers, who by their annual visits and correspondence over the years have become iris friends to us rather than customers.

These fifteen years have been busy ones and we enjoyed them immensely. The rewards have been most satisfying, not from a financial standpoint by any means, but from the knowledge that our spring garden display gave pleasure and enjoyment to thousands of visitors over the years and that we were instrumental in having so many flower lovers become lasting iris fanciers.

The simple fact that we are getting older and the work and responsibilities greater and more confining is the greatest contributing factor in bringing us to the decision to retire.

This winter has been a fairly good one for iris and perennials so we expect the iris bloom to be very much better than last year. We look forward to seeing all of our old friends and customers for our last display at Cherry Hill Iris Gardens—so please do come!

OLIVER W. HOLTON VIRGINIA B. HOLTON

PLEASE NOTE— Kindly bring this catalog with you if visiting gardens.

You Are Cordially Invited to Pay Us a Visit

Our gardens are open daily from early morning to dusk, including Sundays, from April 30 until the end of the bloom season. If you live within driving distance by all means pay us a visit. You will see a fine display of modern varieties of iris as well as perennials, peonies, flowering trees and shrubs in bloom, all of which will make the trip very much worth while for all flower gardeners.

The Blooming Period

At our location the early varieties commence blooming usually the middle of May and the late varieties finish blooming by mid-June. The BEST TIME to visit the gardens in order to see the most Iris in bloom is from May 20th to June 8th—the PEAK BLOOM period from May 28th to June 3rd. We are always about six days behind the Philadelphia area. The dates given are for a normal spring and we suggest that if you are in doubt, telephone us before coming — Tel. Springtown - Fieldbrook 6-7836.

Location

Our gardens are located one half mile west of Route 212 in upper Bucks County at Pleasant Valley; watch for the turn at the north end of the village. Our sign posts will guide you when nearing Pleasant Valley. If taking the North-South Extension of the Penna. Turnpike, use the Quakertown Exit, which is just 13 miles from our gardens.

See inside back cover for map showing the best routes and distances.

Terms

Cash with order please—making check or money order payable to Cherry Hill Iris Gardens. Sorry no C.O.D. shipments. Parcel post rates have gone up again this year so we must ask that on all Iris orders under \$5.00 net, and on all orders being mailed west of the Mississippi, customers include 50ϕ additional payment to help defray this expense. All other orders will be shipped postpaid. Please use order blank on Page No. 23.

Extras

We believe in giving you good measure so this year we will add at least 10% or more in extra iris of our own selection. We suggest that you give us a list of other varieties you might like to have on your order blank—or if you would like more in the same varieties which you have ordered, so state on your order.

Shipping Time

We will commence filling orders, in the rotation as received, during the week of July 10th and continue shipments until August 24th. Please do not ask for shipment before or after the dates shown as it will be impossible for us to comply with your request.

Regarding Called for Orders

If you wish to call for your order we would be very pleased to oblige—however, we must ask that this year you call during the hours of 8 A.M. and 5 P.M. on week days and up until noon sharp on Saturdays. The new owners of the property will be living here from June 21st on and we desire to give them complete privacy during the weekends and the evenings during the week.

If you are calling for your order, kindly state so on your order blank. We will advise you by card three or four days in advance of when they will be ready for you. Extra iris will be given to those calling equal in value to about double what the postage would have been on the order.

Proper Planting Time

This depends somewhat on location. For this latitude July to early-September gives the best results, while further north July and August are recommended. For southern states, planting may be done as late as mid-October. The idea is to plant iris early enough so that they may be well rooted before winter sets in—this prevents winter and early spring heaving.

Heaving does not kill Iris but it will greatly lessen the chances of blooming the first year. Complete cultural instructions are enclosed in each shipment.

Guarantee

Every rhizome will be freshly dug, large, vigorous and well rooted. They will be free from disease and insect pests and packed with greatest of care so as to reach you in perfect condition. Every rhizome is labeled with a copper wired printed wooden label true to name. No substitutions are made unless you so indicate on your order blank. (We might add here that customers who permit substitutions are **always** the gainers.)

Our gardens are licensed and inspected by the Penna. Dept. of Agriculture. All shipments to areas outside the Jap Beetle Zone are inspected and certified by the U.S. Dept. of Agriculture here at our gardens before shipment.

IRIS AS A GIFT

If you have a friend, relative or good business customer interested in flower gardening, you would make them very happy by sending some of our Iris as a gift. Donor's card will be enclosed with the shipment—either, one you send (no writing however except your signature on account of postal regulations) or one supplied by us showing your name. Each year more and more of these growing and lasting gifts are ordered by our customers. If a special date of delivery is desired, it is necessary to order at least ten days in advance.

EVERY GARDEN SHOULD HAVE SOME IRIS PLANTINGS

Bearded Iris are considered the ideal perennial. They are very hardy, quite easy to grow and practically free from diseases and insect pests.

The basic needs for best results are drainage, sun and a moderate amount of feeding. Iris cannot stand wet ground or standing water for a long period without rotting—hence a slight slope or raised beds are desirable. They may be planted in full sun or partial shade but in order to bloom well there should be at least a half a day of sun. Bone meal is the safest food and should be worked in the ground around the plants early in the spring. Super phosphate is quicker acting—should be kept away from rhizomes however. Well rotted cow manure is very good if worked into the ground well **before** planting and kept away from the rhizomes.

Iris are not particular about the soil—of course a light, well drained fertile garden soil is best but they will grow in sandy or clay soil. We have them growing equally well in slightly alkaline and slightly acid soil.

The range in color is more extensive than in any other flower and with the various blends, bi-colors, plicatas and variegatas, the variety to choose from is almost unlimited.

Iris not only give wonderful color value and added beauty to your garden, but are excellent as cut flowers for the house. A stalk, if cut when the top flower is opening, will last a week or longer.

The American Iris Society

Every Iris lover should by all means join the above organization, one of the finest of its kind in the country. Members receive four big Bulletins (illustrated) yearly, each of which are packed full of interesting and instructive articles on Iris. You also receive free the valuable new booklet "What Every Iris Grower Should Know."

Membership costs \$5.00 per year. Send money and application for membership to The American Iris Society, 2237 Tower Grove Blvd., St. Louis 10, Missouri, or you may include the above amount with your order and we will make application for you.

COMPLETE PLANTING AND CULTURAL INSTRUCTIONS ARE SENT WITH EVERY SHIPMENT.

A bold blend of coppery rose. Large, broadpetaled, flaring flower of good substance. \$2.50

ROSY VEIL (H. Sass, '53) M. 36"

A dainty plicata of medium size and beattiful form. A glistening white with edging of rosy heliotrope which forms the border of web-like stichings. A.M. 1959. \$3.00

ROYAL SOVEREIGN (Stevens, '51) M.L. 38"

Smooth, light orange in color with falls of rich plush-velvet falls and taffeta-textured standards. Stands hottest sun with no fading. Flowers large, rapid increaser. H.M. 1953. On Popularity List '59. \$1.00

RUFFLED APACHE (Wallace, '54) M.L. 36"

A large blend of red and gold. Standards are golden yellow and falls a red blend. Entire flower is heavily laced and ruffled. Quite showy. \$5.00

RUFFLED ELEGANCE (H.M. White '55) M.L. 38"

Standards petunia violet, falls chinese violet, margins on both darker. Effect is rosy violet blend. Large flowers well branched and a star in any Iris garden. \$3.00

RUFFLED ORGANDY (Brenan, '53) E.M. 38"

This beautiful Iris is well named. It is a ruffled ivory-cream with a translucent lavender-pearl undertone. Falls etched with a light gold border. It is a flower that must be seen to be fully appreciated. Tall stalks with 5-way branching and up to 17 buds over its long blooming period. A.M. 1955.

\$1.50

RUFFLED TAFFETA (Miess, '54) M. 40"

Pinkish lavender over-all, with a contrasting cream colored beard. Flowers are very large and beautifully ruffled. Substance is remarkably good and the plants are vigorous and rapid increasers. A.M. '59. \$6.00

RUM PARFAIT (Fraim, '57) E.M. 36"

A greenish cream self with lemon beard and hafts. Moderate sized flowers of fine substance are delightfully ruffled. \$3.00

SABLE NIGHT (P. Cook, '52) M. 38"

The winner of the Dykes Medal 1955. Darkest black purple to date, falls almost black with velvety sheen. A.M. 1954. Very showy. 7th on Popularity Poll. \$3.50

SERENE VALLEY (Smith, '52) E. 41"

An early blooming large ruffled light blue self. 7 inch flowers on tall, well branched stalks. H.C. '51. \$3.00

SEVENTH HEAVEN (Lapham, '55) M. 30"

A pure shell pink border Iris with a pink beard. Strong growing and free flowering. Wonderful size for flower arrangements, as flowers are of medium size on well branched stalks. \$3.00

SHINING HOUR (Tompkins, '55) M. 38"

A large flower of deep chartreuse amber with a deep chestnut brown undertone. Has a glittering finish and great brilliance. Broad ruffled petals of heavy substance. Husky plants and a rapid increaser. \$2.00

* SNOWY HERON (Schreiner, '59) M.L. 40"

A new white — immense glossy milk-white flowers on tall strong stalks with good branching. A heavy bloomer with three and four flowers open at one time on a single stalk. Limited stock. \$12.00

SOLID GOLD (Kleinsorge, '51) M. 38"

Supposed to be the finest deep yellow introduced today. According to the introducer it is the deepest yellow imaginable, huge in size and ideally formed. Stands out like a beacon light to all parts of the garden. A.M. 1953. Popular 100 List. \$1.00

SOLID MAHOGANY (J. Sass, '44) M. 38"

A smooth, deep brownish red — rich and glowing. Fine form, texture and branching. An impressive Iris of high quality. A.M. 1947. \$1.00

SONG OF SONGS (Crosby, '50) M. 36"

Light yellow standards, white falls edged with same color as the standards. All petals are edged with lacing and ruffling. \$1.00

SPANISH CREAM (Dolman, '52) L.M. 40"

A tall, robust, two-toned light yellow, suggesting the confection that Mother used to make. The flowers are ruffled, of very firm substance and great resistance to wind and rain; they are well placed on strong widely branched stalks. H.C. '51, \$1.00

SPANISH FANDANGO (Kleinsorge, '51) M. 48"

A variegata with flaring falls of a vivid chestnut-red and ruffled closed standards of coppery yellow. A greatly improved Mexico. A rampant grower, very tall with good wide branching. H.M. 1952. \$1.50

SPANISH PEAKS (Loomis, '47) M. 38"

Large, broad petaled, pure white flower of heavy substance. Form is good, ruffled and on strong, tall stalks. Popular 100 List. A.M. 1950.

SPELLBOUND (Linse, '51) M. 42"

An Iris of outstanding form done in reddish brown with a golden overlay. Ruffled, horizontally flaring falls. A brilliant, glowing eye catcher. H.M. 1952. \$2.00

SPRING MELODY (Miess, '54) M.L. 40"

This new introduction of Miss Miess's is a pure, dandelion-yellow. The flower is beautifully ruffled, has good form and excellent substance. \$4.00

STORM WARNING (Schreiner, '53) M. 36"

A new black Iris which is not only black but on 36" stalk. Good form and nice ruffling. Will be much in demand. \$1.50

STORMY SKIES (Plough, '53) M. 40"

A blend that is different. Smoky buff with a violet flush below a big, rich yellow beard. H.C. 1952. \$2.00

SUMMER SONG (Nesmith, '53) M. 39"

A beautiful new Iris which has great carrying power in the garden as it is so brilliant and glowing. It is a deep orange buff in color, sparkling as if dusted with gold particles. Perfect flaring form-falls almost horizontal. Flowers have exceptional lasting qualities. H.M. 1952. \$2.00

SUMMIT (Stevens, '51) M. 40"

In 1949 Mrs. Stevens created quite a stir in Iris circles with Pinnacle—a new color break. This yellow Amoena is similar to Pinnacle except that instead of light yellow falls and white standards, it has deep yellow in the falls and white standards. \$1.00

SUNRAY (David Hall, '50) L. 36"

A large ruffled light yellow of ideal form and extra heavy substance. Has a sheen and brilliance rarely found in yellows. \$1.00

SUNSET GLOW (H. F. Hall, '53) M.L. 39"

A beautiful garnet-brown self with a rich orange beard. Thick velvety texture. Holds color well under adverse weather conditions and is a vigorous grower. \$1.50

SURPRISE PARTY (Kleinsorge, '55) M. 36"

An iris of a new color combination. Rosy lavender standards and golden apricot falls. Flower has a definite color contrast and garden value. H.M. 1956. \$3.50

SURRENDER (Thompkins, '51) M.L. 38"

An Iris which is entirely different from any other. The color is a velvety white with a bright canary yellow flowing over the hafts and upper fall, fading out around the edges in minute plicata like markings of yellow and faint pink. Flowers are large, broad petals and tailored form. \$1.00

SWAN BALLET (Muhlestein, '55) M.L. 37"

A new white which has been greatly praised by all who have seen it. A beautiful pure white with a white beard. Falls are very round and horizontally flared, somewhat ruffled and of heavy substance. The winner of the Dykes Medal last year. 12th on Pop. Poll 1959 and leading white. \$12.50

SWEETHEART'S FOLLY (Cassebeer, '57) M. 35"

A large, charming creamy white flower intriguingly suffused with gold, particularly at the haft. Standards are firm and ruffled; the falls broad and waved; beard is orange. Flower is 6" high and 7" across. \$10.00

TABASCO (Craig, '51) M. 38"

A stunning, massive yellow plicata with an overall sprinkling of rich orange red. Like paprika sprinkled over an omelet. Very striking. H.M. 1954. \$2.00

TABU (Schreiner, 1954) M. 38"

This Iris is claimed to be the last word in the dark blue-black class. It has a rich velvety finish with silken overtones. Larger and taller than most other so called black Irises of recent introduction. Stock limited and demand will be great. H.M. 1954. \$2.00

TAHOLAH (Gibson, '56) M.L. 36"

A beautiful new and novel plicata. Ground color is creamy ivory, the standards heavily shaded cinnamon-red and the falls brushed with the same at the haft and around the edges. Flowers are large, ruffled and of excellent substance. Was first in Judges' Choice balloting of very new varieties in '57. A.M. 1958.

TALL CHIEF (DeForest, '56) M. 37"

A bright, richly colored red self without any haft markings. Horizontally flaring falls with a brilliant orange beard. Good branching and flowers evenly spaced. \$6.00

TALLY HO (Hall, '49) E.M. 32"

An Iris which is new, pleasing and different. Upper part of falls is quite similar in coloring to the bright fuchsia orchids. Standards and lower part of falls are lighter. For the hybridizer it is a wonderful parent—parent of Heritage, Pink Sensation and Fuchsia. H.M. 1950. \$2.00

TEXAS WAY (DeForest, '54) M. 34"

A huge dark purple with wide, rounded falls that are nearly horizontal. Wide closed standards. Very weather resistant. One of the largest Iris. \$5.00

THORWALD (Knowlton, '55) M.L. 39"

A large, broad petaled orange blend. Standards are yellow ochre, standards same base color flushed at center with Spanish orange around rich orange beard. \$2.50

THOTMES III (Kleinsorge, '50) M. 40"

A new smooth self of glistening golden tan with a light bronze beard. A very large flower of heavy texture with extra broad falls. A.M. 1953.

* TOLL GATE (Cook, '58) M. 40"

Big, bold and striking. Standards are pale blue, falls dark violet blue. Yellow beard across haft gives an additional and distinctive character. This new amoena is much sought after and stock scarce. H.M. '59. \$20.00

TOP FAVORITE (Schreiner, '57) M.L. 38"

A new refreshing orchid pink with stardust sheen. Probably the largest pink in existance, excellent form and a leathery substance. This showy Iris will be greatly in demand. \$7.50

TOP FLIGHT (D. Hall, '53) M.L. 34"

Flaring, deep, rich orange apricot with a fiery orange-red beard which is very thick and heavy. Wonderful form and substance. A.M. 1955.

TOWN TALK (Lapham, '54) M. 40"

A large flower of dull flame red. Heavy orange beard. Excellent substance. \$5.00

TRANQUILITY (Fay, '50) M. 38"

A very large milk-white flower with a white beard. Flower is round with broad petals, domed standards with nicely flaring falls. Perfect branching. A splendid white which we recommend highly. A.M. '53. \$1.50

TRIM (McKee, '56) M. 36"

A very smooth coppery-brown red with a sparkling sheen. A vigorous grower with very good branching. (Plant Patent #1592). Sold subject to Patent Law.

Net \$10.00

TRULY YOURS (O. Fay, '49) L. 38"

A gigantic flower of an unusual color pattern. The heart of the flower is bright yellow, shading off to almost white at the top of the standards and the bottom of the falls. Entire flower is ruffled with lace-like edges, as in Chantilly. A most spectacular flower. A.M. 1951. Dykes Medal Winner for 1953. 4th on Popularity Poll 1959. \$2.00

VALGANZA (Brenan '53) M. 38"

A new color variegata with yellow standards and reddish purple falls. Very striking.

\$2.00

VANITY FAIR (Hall, '51) V.L. 36"

Clear medium true pink, smooth and tailored in appearance. Lots of color, beautiful form, good height and a very fiery tangerine beard. Since most of all the Flamingo-pinks are finished blooming rather early in the season, this one is special interest being a very late bloomer. Gives a most creditable performance during rainy, windy weather. H.M. 1952.

VICTORIAN VEIL (Craig, '50) M. 44"

Huge blossoms of snow white ground color very heavily sprayed with rose-violet, giving a bi-tone effect. Beautifully ruffled broad petals. \$1.00

VIOLET HARMONY (Lowry, '52) M. 40"

This handsome Iris was the Dykes Medal winner for 1957. It is a large, nicely ruffled flower of firm texture—almost a violet self, except for a lighter flush at the haft. Truly a top quality Iris of great charm. A.M. '54. 2nd on Popularity Poll 1959. \$2.50

VIOLET HILLS (DeForest, '56) M. 40"

Fred DeForest's top introduction for 1956. A very large self of glistening Fluorite Violet with blue tipped beard. Much deeper in color and quite different from First Violet which won the Dykes Medal in 1956. A clean, clear color with no haft markings. Perfect branching, excellent substance. A.M. 1958. \$10.00

WATERLILY (Kleinsorge, '53) M. 34"

A new Iris which is different in form and color. An ivory-buff with flat falls and closed but crinkled standards. General color effect is light toned chamois skin, sprinkled with gold particles. Faint lavender cast in center of falls. Charming. \$3.00

WATERMELON (Waters, 1954) M. 38"

Named because it is the color of the inside of a watermelon that is not quite ripe. Color is a blend of greenish light lemon and deep watermelon pink. A large ruffled flower of extra heavy substance. \$5.00

WAXING MOON (O. Fay, '57) M. 35"

A very clear medium light yellow with a beard to match; no haft marks. Round and full petaled. Well branched. H.M. 1957. A.M. 1959. \$10.00

WEDDING BOUQUET (Buttrick, '52) M. 35"

There are many good whites but here is a new one which is extra good and quite distinctive. Pure white, heavily ruffled flowers broad, full petaled semi-flaring falls, fine well domed standards. Buds are pale chartreuse. Flowers well spaced on excellent branching. On Popular 100 List. A.M. 1956.

\$2.50

WHIMSY (DeForest, '57) M. 37"

A new bicolor with medium violet standards and rich brown falls. Large, smooth and intriguing. \$7.50

WHIRLAWAY (Voris, '57) M. 38"

A brilliant medium yellow with a lighter blaze in center of falls. Ruffled horizontal falls, ruffled closed standards. Many large flowers born on very stout, well branched stalks. In our guest seedling bed in 1957 this iris had more votes than all the others added together. It is a dandy. \$5.00

WHITE PALOMINO (D. Hall, '58) M. 36"

This is an exact replica of the popular Palomino, which was runner-up for the Dykes Medal in 1957, except that it is white. It has the coppery overlay on the hafts, and the standards blend into copper at the base. Beard tangerine-red. \$10.00

WHITE TOWER (Schreiner, '51) E. 42"

Absolutely the tallest, and one of the largest and whitest white Irises on the market today. Although large, it has good form with broad falls of firm substance and fine texture. Gold beard and haft. Blooms well spaced on the tall stalks. A majestic Iris which is very well named. \$1.00

WISSINOMING (Dolman, '53) M. 38"

A tailored, lavender-blue self of very clear tone. Tall with fine branching. One of the most floriferous Iris we grow, with as many as ten blooms to a stalk.

\$1.00 each

YELLOW TOWER (Muhlestein, '50) M. 38"

An imposing medium yellow wide and full in parts. Tall and well branched. \$1.00

ZANTHA (O. Fay, '47) E.M. 37"

Large and imposing, well formed flowers of rich, deep yellow. Clean and pure self-yellow beard. Make a wonderful exhibition stalk. Velvety semi flaring falls. Winner of Pres. Cup 1947. Very fine. Popular 100 List.

* ZULU WARRIOR (Craig, '54) E. 40"

Large ruffled yellow plicata with a dense wine-berry border. Exceptionally fine form and heavy substance. Often twice blooming. H.M. 1954. \$7.50

PERMARKERS

PERMARKERS, the new garden marker, meets **all** the exacting labeling requirements of discriminating gardeners and growers. We have used them for the past ten years.

The label is made of gray-green durable thick plastic. This label is most harmonizing in the garden. Writing remains legible for years but can be easily erased for re-use.

The supports are made of Bethanised steel which is light, rigid, durable and non-corrosive. They will not turn or heave and hold the labels firmly at a readable angle—never spattered and always clean. Labels easily removed from supports.
